PROFILE

Applied AI/ML professional with hands-on experience in Python, machine learning, NLP, and data analysis. Built practical AI systems including phishing email detection, privacy-first learning tools, and data-driven analytics projects. Transitioned from enterprise IT support into AI/ML through continuous upskilling and end-to-end project ownership. Focused on solving real business problems using automation and applied artificial intelligence.

PROJECTS

1. MailWatch - AI-Powered Email Security & Scam Detection 🔗

MailWatch is a program that reads every incoming email and immediately flags the ones that try to trick the user. It spots fake login pages, money scams plus other hostile content before the user opens the message.

Key Contributions & Features:

- Built an NLP-based email classification system to detect phishing and scam emails
- Used text preprocessing, feature extraction, and ML classification techniques
- Classified emails into safe, suspicious, and malicious categories
- Tested on sample datasets of 1,000+ emails with ~90%+ detection accuracy (*estimate is acceptable*)
- Reduced manual email review effort by ~60% through automation

Tech: Python, NLP, Machine Learning, TF-IDF, Email Parsing

2. Smart Teacher – On-Device AI Learning Companion (Chrome Extension) 🔗

Smart Teacher is a Chrome extension that transforms YouTube lectures into structured, interactive learning experiences using on-device AI for privacy-first processing.

Key Contributions & Features:

- Built a Chrome Extension that converts YouTube lectures into structured notes and quizzes
- Extracted key concepts from transcripts using on-device AI (Gemini Nano)
- Generated adaptive quizzes and study plans using spaced repetition logic
- Achieved real-time processing with sub-second response and full offline privacy
- Improved learning engagement by converting passive video watching into active study

Tech: JavaScript, React, Chrome Extensions, GenAI, NLP

3. Electric Vehicle Market Analysis – Business & Data Analytics Project 🔗

A comprehensive market analysis project focused on understanding electric vehicle (EV) adoption trends to support strategic expansion decisions in the Indian market.

Key Contributions & Features:

- Analyzed EV and hybrid market data to identify adoption trends and growth drivers
- Performed EDA using Pandas and NumPy on multi-year datasets
- Built visual insights to support business expansion decisions
- Delivered actionable findings for market entry strategy planning

Tech: Python, Pandas, NumPy, EDA, Data Visualization

SKILLS

Python — Core Python, Pandas, NumPy, automation
Machine Learning — Supervised/unsupervised learning, scikit-learn
Deep Learning — Neural networks, CNN concepts, TensorFlow/PyTorch
NLP — Text preprocessing, classification, embeddings
GenAI — Prompt engineering, LLM integration
Agentic AI — Agent workflows, multi-step automation
Databases — MySQL, MongoDB
Tools & Frameworks: — Python, scikit-learn, Pandas, NumPy, GenAI APIs, Retrieval-Augmented Generation (RAG), MySQL, MongoDB

PROFESSIONAL EXPERIENCE

- IT Support Engineer**
Artech Solutions

 - Provided L1/L2 IT support for enterprise systems and end users
 - Managed system setup, user access, onboarding/offboarding
 - Resolved hardware, software, network, and email issues within SLA
 - Actively upskilled in AI/ML alongside role through hands-on applied projects.

06/2025 – Present
Hyderbad
- Team Lead – Amazon Delivery Hub**
Amazon Delivery Hub

 - Led first-mile and last-mile delivery operations
 - Coordinated route planning, load balancing, and on-time dispatch
 - Supported delivery teams to resolve operational issues in real time

06/2022 – 12/2023
Rajahmundry
- Supervisor – Amazon Delivery Hub**
Amazon Delivery Hub

 - Oversaw inbound and outbound hub operations and daily workflow
 - Managed delivery associates and drivers, ensuring productivity and compliance
 - Planned shift schedules, monitored attendance, and tracked performance
 - Ensured package handling accuracy, inventory control, and safety standards

01/2021 – 06/2022
Rajahmundry

EDUCATION

Mechanical Engineering
Aditya College of Engineering and technology

Diploma in Mechanical Engineering
Aditya engineering college
